Choose from rayon, cotton, glitter, linen, jute and even hairy textures. This range includes outdoor cable, large section industrial cable, rope cable, lamp cord and conduit cable.

Product is AUS registered and complies with all AU/NZ safety standards.

Your cable will come in one continuous roll up to 50m.

Product description:

How to choose the type of coating: Rayon, Cotton or Linen?

Many customers ask us: what is the difference between the coatings Rayon, Cotton or linen? The answer depends entirely on the type of effect you want to achieve. Cotton and Linen have a matt and natural effect; the Rayon instead enhances color brilliance.

Often it is used to combine the natural effect with vintage items such as brass, copper, iron or porcelain, while Rayon is coupled with colored metal, with chrome or satin trims. Choose your style!
